FREQUENTLY ASKED QUESTIONS

▼ What did superinvestors buy most in Q2 2026?

The Q2 2026 report covers 11 of 14 tracked superinvestors with 13F filings for 2026-06-30. The most bought stock by dollars was GOOG ($6.43B net, 4 funds). The most sold was BAC ($1.72B net, 1 funds).

▼ How is this report produced?

It is assembled automatically from the SEC 13F-HR filings of the 14 tracked funds: net dollar buys and sells, buyer/seller counts, new consensus positions, biggest exits and the largest percentage moves. Generated 2026-09-11.

ⓘ 13F data shows quarter-end positions, is delayed by up to 45 days and covers only long positions in US-listed securities; short positions, most derivatives and non-US assets are not reported.
